Hence only four of the fifteen appointed by me reported for June. Did I select 11 sunshines? I hope not. I am aware that June was a very busy month with farmers—and money scarce. Therefore I will give all another trial. But all who fall to get busy months month and have nothing sy this month and have nothing to report in August, will be drop-ped from the list and others ap-pointed.

I was appointed by the county organization to see that this county is rovered with literature —and I am going to do my part. Did you ever hear of me attempt-ing a thing and failing? I don't know how to fail.

But to succeed in this, I must have a bunch of active co-work ers. Sunshines wont do. And if you don't intend to do your part, why don't you notify me now?
